

DATE OF ISSUE: August 25, 2023

ISSUED BY PASCAL

Product Name: Banicide Plus Liquid Activator

| 1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER |   |  |
|--|---|--|
| Product Name:                                  | Banicide Plus Liquid Activator            |  |
| Product Use:                                   | Activator for Liquid Sterilant/High Level |  |
|  | Disinfectant                              |  |
| Manufacturer Name:                             | Pascal International, Inc.                |  |
| Address:                                       | 2929 Northup Way                          |  |
|  | Bellevue, Washington 98004 USA            |  |
| Emergency Telephone (Infotrac):                | 1-800-535-5053, 1-352-323-3500            |  |
| Telephone:                                     | 1-425-827-4694, 1-800-426-8051            |  |
| Fax:   | 1-425-827-6893                            |  |

#### 2. HAZARDS IDENTIFICATION

**GHS Classification & Label Elements:** 

This product is not considered to be or to contain hazardous chemicals based on evaluations made by our company under the Globally Harmonized System (GHS) of Classification and Labeling of Chemicals, the Regulation (EC) No 1272/2008 of the European Parliament and of the Council (CLP), and the <u>OSHA</u> Hazard Communication Standard, 29 CFR 1910.122. No Classification or Label Elements are required. Label Elements: None

| Laber Elements.                         | IVOID |
|---|-------|
| Hazards not otherwise classified (HNOC) | None  |
| Safety Phrases:                         | None  |

| 3. COMPOSITION / INFORMATION ON INGREDIENTS |           |            |
|---|-----------|------------|
| Chemical Entity (Components)                | CAS No.   | Proportion |
| Water and non-hazardous ingredients         | Mixture   | 80-100%    |
| Sodium Nitrite                              | 7632-00-0 | 1-5%       |

| 4. FIRST AID MEASURES         |  |
|-------------------------------|--|
| Inhalation:                   | Move to fresh air if effects occur. Seek medical         |
| innaration.                   | attention if effects persist.                            |
|                               | If swallowed, seek medical advice by calling a           |
| Incostion                     | Poison Control Center or hospital emergency room.        |
| Ingestion:                    | Do not induce vomiting. Do not attempt to give           |
|                               | anything by mouth to an unconscious person.              |
| Skin:                         | Wash with soap and water. If skin irritation             |
|                               | develops and persists, seek medical attention.           |
|                               | Hold eye open and rinse slowly and gently with           |
| Euc                           | water. Remove contact lenses, if present, after the      |
| Eye:                          | first five minutes, then continue rinsing. If irritation |
|                               | develops or persists, seek medical advice.               |
| Acute & Delayed Symptoms:     | May be irritating to eyes, skin and respiratory tract.   |
| Indication of immediate       |  |
| medical attention and special | Treat symptomatically                                    |
| treatment, if needed:         |  |

DATE OF ISSUE: August 25, 2023

#### Product Name: Banicide Plus Liquid Activator

| 5. | FIRE FIGHTING MEASURES               |   |
|----|--------------------------------------|---|
|    | Extinguishing Media:                 | Use any media that is suitable for the surrounding fire.  |
|    | Specific Hazards:                    | None known.   |
|    | Precautions in connection with fire: | Firefighters should wear positive pressure self-<br>contained breathing apparatus and full protective<br>clothing for fires in areas where chemicals are used<br>or stored. |

| 6. ACCIDENTAL RELEASE MEASURES |  |
|--------------------------------|--|
| Emergency Procedures:          | Wear appropriate protective clothing and             |
|                                | equipment.   |
| Clean Up Procedure:            | Collect material with an inert, non-combustible,     |
|                                | absorbent material and place in appropriate, labeled |
|                                | container for disposal.                              |

| 7. HANDLING AND STORAGE |  |
|-------------------------|--|
| Handling:               | Avoid generating and breathing airborne mists.<br>Avoid contact with eyes, skin and clothing. Wash<br>thoroughly with soap and water after handling. Use<br>in accordance with label directions. |
| Storage:                | Store at room temperature. Avoid prolonged<br>exposure to heat and/or humidity as this reduces<br>product effectiveness. Keep containers closed.   |

| EXPOSURE CONTROLS / PERSONAL PROTECTION |   |  |
|---|---|--|
| Exposure Limits:                        | Sodium Nitrite - none established   |  |
| Respiratory Protection:                 | None under normal use conditions with adequate<br>ventilation. For operations where exposure levels of<br>mists are excessive and irritation is experienced, a<br>NIOSH approved respirator with particulate filter is<br>recommended. Equipment selection depends on<br>contaminant type and concentration. Select in<br>accordance with 29 CFR 1910.134 and good<br>industrial hygiene practice. For firefighting, use<br>self-contained breathing apparatus. |  |
| Eye Protection:                         | Safety goggles recommended.   |  |
| Hand Protection:                        | Protective gloves such as rubber or nitrile are recommended.  |  |
| Engineering controls:                   | General ventilation should be adequate for normal<br>use. For operations where the exposure levels are<br>exceeded, mechanical ventilation such as local<br>exhaust may be needed.  |  |

| 9. PHYSICAL AND CHEMICAL PROP | PERTIES          |
|-------------------------------|------------------|
| Appearance:                   | Green liquid     |
| Odor:                         | No odor          |
| Odor Threshold:               | Not available    |
| pH:                           | 10.0-10.8        |
| Vapor Pressure:               | Same as water    |
| Vapor Density:                | Same as water    |
| Relative Density:             | Not determined   |
| Boiling Point:                | Not applicable   |
| Freezing / Melting Point:     | Not available    |
| Relative Density:             | >1.384           |
| Solubility in Water:          | Soluble in water |
| Partition Coefficient: (N-    | Not available    |
| Octano/Water)                 |                  |
| Decomposition Temperature:    | Not available    |
| Specific Gravity:             | Not available    |
| Viscosity:                    | Not available    |
| Flash Point:                  | Not flammable    |
| Evaporation Rate:             | Not applicable   |
| Flammability:                 | Not flammable    |
| Autoignition Temperature:     | Not flammable    |

| <b>10. STABILITY AND REACTIVITY</b> |   |
|-------------------------------------|---|
| Chemical Stability:                 | Stable  |
| Reactivity:                         | None known  |
| Conditions to Avoid:                | None known  |
| Incompatible Materials:             | Strong oxidizing agents, reducing agents, metals and strong acids |
| Hazardous Decomposition             | Thermal decomposition will produce oxides of                      |
| Products:                           | carbon, nitrogen and phosphorus                                   |
| Hazardous Reactions:                | None known  |

| <b>11. TOXICOLOGICAL INFORMATION</b> |   |
|--------------------------------------|---|
| Potential Health Effects:            |   |
| Inhalation:                          | May cause irritation of the nose, throat and upper respiratory tract. |
| Skin Contact:                        | May cause skin irritation   |
| • Eye Contact:                       | May cause irritation. Eye damage is not expected                      |

| Product Name: Banicide Plus | Liquid Activator  |
|-----------------------------|---|
|                             |   |
| • Ingestion:                | Do not ingest. If swallowed, may irritate mouth,<br>throat and intestinal tract. Ingestion of sodium<br>nitrite may cause methemoglobinemia and affect the<br>ability of the blood to transport oxygen. Symptoms<br>include nausea, dizziness, weakness, cyanosis (blue<br>color of the skin and mucous membranes) and<br>collapse. |
| • Chronic Hazards:          | No adverse effects expected based on the available data   |
| • Carcinogen:               | None of the components is listed as a carcinogen or<br>potential carcinogen by IARC, NTP, ACGIH OR<br>OSHA  |

| 12. Ecological Information                                   |  |  |
|--|--|--|
| This product is not classified as harmful to the environment |  |  |
| Ecotoxicity:   | No toxicity data available for product           |  |
| Sodium Nitrite:  | LC50 rainbow trout .100mg/L/96 hr; EC50 daphnia  |  |
|  | magna >100 mg/L/48 hr                            |  |
| Non-hazardous  | LC50 fish >100mg/L/96 hr; EC50 daphnia magna     |  |
| Ingredients:   | ~50 mg/L/48 hr; IC50 algae >100 mg/L/72 hr.      |  |
| Persistence and Degradability:                               | No data available. Biodegradation does not apply |  |
|  | to inorganic substances such as sodium nitrite.  |  |
| Bioaccumulative Potential: No data available                 |  |  |
| Other Adverse Effects:                                       | None known                                       |  |

| 13. DISPOSAL CONSIDERATIONS |   |
|-----------------------------|---|
| Solution Disposal:          | Refer to product label for disposal information.<br>Dispose in accordance with national,<br>state/provincial and local regulations. |
| Container Disposal:         | Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available.                                 |

| 14. TRANSPORT INFORMATION           |               |
